## GoPhone with mMode Plans

Payment Plan Options	Anytime Minutes <sup>1</sup>	Night and Weekend Minutes <sup>2</sup>	Nationwide Long Distance <sup>4</sup> From your National Service Area	Roaming <sup>5,6</sup> In your National Service Area	mMode <sup>1</sup> In your National Service Area
\$23.98	(up to 80) 25¢	–			
\$33.98	(up to 150) 20¢	<b>unlimited and included no charge</b>	<b>included</b>	<b>included</b>	<b>just 1¢ per Kb</b>
\$43.98	(up to 400) 10¢				
\$53.98	(up to 550) 9¢				

### Text Messaging<sup>3</sup>

Receive unlimited messages per month at no charge.

Send, forward and reply to text messages for just 10¢ per text message.

<sup>1</sup> Available for use in your National Next Generation Service Area. Minutes and kilobytes are approximate and will vary based on your voice/data usage.

<sup>2</sup> Night and weekend airtime is from 9:00 p.m.–5:59 a.m. Monday–Friday; and Friday 9:00 p.m.–Monday 5:59 a.m.; plus New Year's Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

<sup>3</sup> Pricing refers to messages sent from the AT&T Wireless network to any domestic wireless phone number or e-mail address.

<sup>4</sup> Available to anywhere in the 50 United States. Standard airtime charges apply.

<sup>5</sup> Domestic Roaming - 25¢ per minute. Domestic and international long distance may apply.

<sup>6</sup> When roaming in the United States or Canada outside the National Service Area, data usage billed at 1.27¢ per Kb.

## Where's the data?

Every time you use mMode features, you use kilobytes (Kbs) of data. Here's a quick look at how many kilobytes everyday activities might use.

Typical mMode Activities	Approximate Kilobyte (Kbs) Usage
Read a five-sentence e-mail	10
See the price of a stock	10
Check your flight status	10
Read top headlines	25
Read a three-paragraph e-mail	25
Send a three-paragraph e-mail	25
Get directions	25
Find the best steakhouse nearby with directions	25

Kilobyte usage estimates are based on a Next Generation phone browsing WAP sites. Actual usage may vary based on web sites browsed, third party site configuration, network congestion and device.

You can add mMode to your GoPhone at any time.

# Let's go!

## How do I get more minutes?

Your account is automatically replenished whenever your balance goes below \$5 or every 30 days (whichever comes first). There are no separate bills to pay, no cards to buy – just pick a plan and go!

## How will I know when my balance is low?

When your balance falls below \$10 (and again at \$7), we let you know with a text message sent right to your phone. You can check your balance anytime: go online ([www.attwireless.com/gophone](http://www.attwireless.com/gophone)) or use mMode to access your account information right from your phone!

*Note: Low balance text message notification is not guaranteed. If you are outside the text messaging service area, on a call, or if your phone's memory is full, you will not be able to receive text messages. Standard data usage charges apply when accessing account information from your phone.*

## Can I change my plan?

Anytime. Just call us.

## Explanation of Rates and Charges

**Next Generation Device Required.** Your device has been manufactured to operate exclusively on our network and cannot be activated with any other wireless carrier.

On the AT&T Wireless Next Generation network, voice usage is measured during the time you are connected to our system, which is approximately from the time you press the button that initiates or answers the call until approximately the time the first party terminates the call. Voice usage for each call is deducted in full minute increments with partial minutes rounded up to the next full minute. While on the AT&T Wireless network, there is no charge for busy or unanswered calls if you end the call within 30 seconds. Availability, timeliness and reliability of service are subject to radio transmission limitations caused by system capacity, system repairs and modifications, your equipment, terrain, signal strength, weather and other conditions. Different rates apply for calling card or credit card calls, international calls or operator assistance. Long distance charges for calls received while roaming are calculated from your home area code to the location where you received the call. #121 VoiceInfo, Call Waiting, accessing voice mail from your wireless device and Three-Way Calling will incur airtime or roaming plus applicable long distance charges. Call forwarding usage is charged at 40 cents per minute plus applicable long distance charges. You will be charged for each text message sent from your device, whether the message is delivered or not.

You will automatically receive limited access to AT&T Wireless data service for \$0.03 per kilobyte on any domestic GPRS network. Additional hardware, software, subscription, credit or debit card, Internet access from your compatible PC, and/or special network connection may be required for some data services. In addition to mMode charges, additional monthly and/or usage charges apply for some service options. You must have a compatible third party instant messenger screen name or account to use instant messenger service on your phone. You will be charged for all data usage sent through our network, including any advertisements which appear on your device, regardless of actual receipt. Once every 24-hours our system will create billing records for each data gateway or carrier's network accessed during that period. The usage for each billing record will be rounded up to the next kilobyte and a cost will be associated with each billing record and rounded to the nearest cent. When actively sending or receiving data, you will not receive call notification and the Find Friends application will not be able to locate you. Location services only provide the location for the most recent cell site the device has contacted. The distance from cell site to device will vary.

Automatic recurring payments will be made at least once every 30 days in the amount disclosed during activation to replenish your account balance. Additional automatic payments will be made whenever your balance is reduced to \$5 or less. You may also proactively replenish your account at any time using select payment options. Amounts deposited into your account are not transferable or refundable. Funds deposited in your account expire after 30 days and will be forfeited if not used prior to the expiration date. Your account will not expire if you deposit funds in your account every 30 days or when your balance reaches zero, whichever first occurs. However, if additional funds are not deposited in your account, the funds will expire after 30 days and will be forfeited. Your service will be suspended once your balance is depleted. Service charges may be deducted from your account in a subsequent period due to delayed reporting between carriers; this service will be charged as if used on the day billed by us. We will provide an on-line, electronic usage summary in a format we choose, which may change from time-to-time.

Many services and features may not work when off the AT&T Wireless Next Generation network. For business contracted customers, your end users' usage on GoPhone will not receive any service discount, nor will such usage contribute to your Minimum Annual Commitment of service revenue or otherwise contribute towards your monthly volume of Qualified Charges. Eligibility requirements, pricing, features, roaming, international calling and calling areas are subject to change or removal without notice. You will be bound by the terms of the contract included in the User Guide.

Returned Check Charge will not exceed \$20; AT&T Wireless Connect® — 411, \$1.25 per use, plus airtime, roaming and applicable long distance, while on the AT&T Wireless network. Regulatory programs fee, other charges, surcharges, universal connectivity charge, and federal, state and local taxes apply. We have a commitment to privacy and encourage you to learn about our practices by reading our Privacy Policy at [attwireless.com/privacy](http://attwireless.com/privacy).
